

Introduction

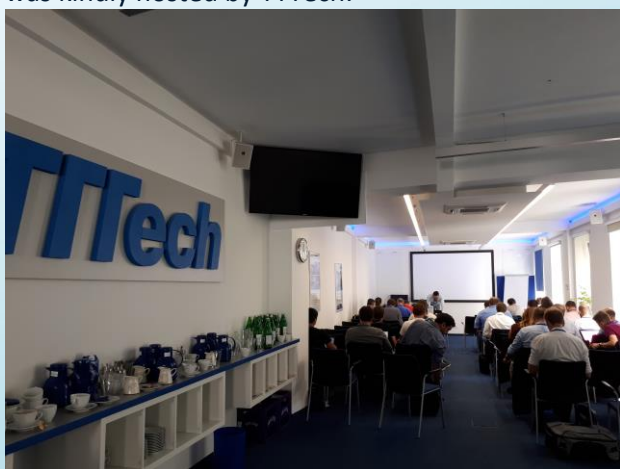

Welcome! This newsletter of the **3Ccar** consortium gives a glance on the progress of the project as well as the dissemination events and other activities.

Meetings

3Ccar final review preparation meeting

10th – 11th September 2018 in Vienna

3Ccar partners met in Vienna to prepare for the final review meeting, as well as to discuss the valorisation of the project results going forward. The meeting was kindly hosted by TTTech:

3Ccar consortium used this event as an excellent opportunity to discuss the achievements of the Supply Chains, the status of the deliverables, and the plans for future collaborations after the end of 3Ccar.

Other events

ECA2030 Torino

July 5th – 6th 2018 in Turin, Italy

3Ccar consortium continues with the chain of ECA2030: Electric Connected Automated Cars Invented for the 2030 Customer events and workshops, and this time the ECA2030 workshop took place in Turin. The event was coorganised with the project SilverStream, which provided their car demonstrator at the event workshop in Polytechnic University of Turin. The event was attended by a number of stakeholders, including public authorities and dr. Paola Pisano, the Deputy Mayor of the City of Turin and Assessor for Innovation.
